WIDE DIMENSIONS

The most interesting dimensions in a data warehouse are the big, wide dimensions

Ralph Kimball

¿POR QUÉ IMPORTA?

Usada frecuentemente

Usado extensivamente

Si no lo hace, Power BI lo por usted (y no tan bien)

Hacer la vida de los desarrolladores de reportes más fácil

#GlobalPowerPlatformBootcamp
#GPPB2024

DECISIONES DE DISEÑO

Autogenerada o Tabla Fechas

SQL, Power BI (DAX) o Power Query (M)

Llave Subrogada (INT) o Natural (Fecha)

POWER BI - AUTO DATE/TIME

POWER BI AUTO DATE-TIME

Time intelligence

☒ Auto date/time for new files

SQL Server database

Server ①
.

Database
AdventureWorks2019

Advanced options

Command timeout in minutes (optional)

SQL statement (optional, requires database)

```
SELECT SalesOrderID, OrderDate, DueDate, ShipDate
, SalesOrderNumber, PurchaseOrderNumber, AccountNumber
, CustomerID, SalesPersonID, SubTotal, TaxAmt, Freight, TotalDue
, ModifiedDate
FROM Sales.SalesOrderHeader
```

☒ Include relationship columns
☐ Navigate using full hierarchy
☐ Enable SQL Server Failover support

OK Cancel

<

REQUERIMIENTOS DE POWER BI

Debe tener una columna de tipo de dato fecha (o fecha/hora)

La columna de fecha debe contener valores únicos.

La columna de fecha no debe contener espacios en blanco.

La columna de fecha no debe tener ninguna fecha faltante.

~~La columna de fecha debe abarcar años completos.~~

La tabla de fechas debe estar marcada como una tabla de fechas.

Time intelligence

✓ Auto date/time for new files
